

Push to talk footswitch

In brief

Our PTT footswitch is engineered for environments where radio operators need the ability to transmit over the radio system hands-free. When used in conjunction with a headset, the operator can use the radio system and perform other functions simultaneously.

The footswitch is ruggedly built to withstand constant use in control environments.

Connection

The footswitch is compatible with the following AWCSL control products:

- DRC-1s desktop controller
- DRC-1/32 desktop controller
- DRC-U audio interface
- TRICX-AIU audio interface

Dimensions

The unit measures 66mm wide x 93mm deep x 27mm high.
Is fitted with a 2m cable.

In the interests of continued development, AWCSL reserve the right to change this specification without notice.
